Dear Juergen

Since we purchased a label applicator to apply labels onto the side of plastic containers from your Firm Accent Packaging Equipment, we have been happy with our purchase.

Our purchase was a very pleasant experience, the professional conduct and technical knowledge at Accent Packaging Equipment assured us that we made the right decision for the job and we got good value for the money. The Labeller is an Avery Dennison applicator Model ALS-206.

Although we had an early warranty issue which was dealt with quickly and efficiently, the labeler's quality and performance promises to give us many years of production.

When we require more packaging equipment, we will definitely contact Juergen at Accent Packaging Equipment again.

Untill then, we wish them all the best.

Paul Paré, operation mgr
